

**Activity 2: Write a letter that the alien can take to its home telling the people all about Islam. What would you tell the aliens from another planet?**

Imagine an alien has come to Earth from outer space. It knows nothing about Islam. It doesn't even know what the word Islam means!

Below I have included some questions the aliens might have for you, but you can definitely include more information! Maybe tell them a little bit about yourself too.

What are Muslims?

What do Muslims believe?

Who can be a Muslim?

What are some of the teachings of Islam?

Who is Prophet Muhammad?

What is the Quran?
